

## MAYORS UPDATE: Suzanne de Leon

I am sure you can all remember the extreme fireworks that occurred last New Year's Eve and would agree with others when they said, "it was over the top!" Your Council members and Staff discussed this topic in January and Council took action at the February 27<sup>th</sup> City Council Meeting to revise the City's original Ordinance dated May 1953 about the use of fireworks in our City. The updated City Ordinance:

### Section 92.35 Sale, possession, transport, or discharge

- (a) It shall be unlawful for any person to sell, offer for sale, barter, exchange, or give away fireworks of any kind, in any quantity, within the corporate limits of the City.
- (b) It shall be unlawful for any person to have, keep, transport, discharge, or otherwise use fireworks of any kind, in any quantity, within the corporate limits of the City, except as provided section 92-35, and subsection (c) hereof.
- (c) a person may temporarily possess and transport fireworks for personal use during a period not to exceed seventy-two (72) hours immediately preceding and including Christmas Day, New Year's Day, and the Fourth of July provided that:
  - i.* The fireworks are possessed in a motor vehicle while being transported for discharge outside the municipal city limits of Balcones Heights; and
  - ii.* The fireworks not exceeding in quantity two vendors' bags, or two sealed display packages are kept in such bag or sealed display package with a receipt displaying the date of purchase securely attached to one of the vendor bags or sealed display packages; and
  - iii.* The fireworks must be inaccessible to children under the age of eighteen years; unopened and in their original sealed manufacturer's packaging and stored in:
    - (A) a glove compartment or similar storage container that is locked and out of the passenger area of a motor vehicle;
    - (B) the trunk of a vehicle; or
    - (C) the area behind the last upright seat of the vehicle, if the vehicle does not have a trunk.

### Section 92.36 Penalty.

Each violation of this article shall be punished by a penalty of a fine of not less than \$100.00 nor more than \$2000.00.

While we definitely don't intend to reduce or control our residents' joy celebrating a New Year, or celebrating July 4th, we must take action to ensure that we follow our City's laws.

*(Mayor's message continues on page 2)*

*(Mayor's message continued from page 1)*

During fireworks events, we hear of children and many elderly whose sleep and rest are disturbed, pets are frightened and may run away from their home in fear, and people with PTSD are often triggered with the noise of fireworks. Going forward, during these holidays we will have more police and fire department first responders active in the neighborhoods. Warnings and/or tickets will be issued to anyone displaying any type of fireworks. However, I expect it will still be very noisy because we will still hear them due to our close borders with the city of San Antonio.

**If anyone has any questions or would like to discuss this, please do not hesitate to contact me at (210) 825-2018 or [sdeleon@bhtx.gov](mailto:sdeleon@bhtx.gov).**

Peace and Blessings, *Suzanne*

### **DEVELOP OR DECLINE: A Look at Our Future Economic Challenges**

Keeping pace with the resource needs of the city has two distinct challenges. Our first challenge is meeting our recurring expenses: employee salaries, building leases, maintenance and repairs, supplies, etc. The City is in good shape to meet these expenses with good annual revenue sources such as sales tax, property tax, fines, and forfeitures.

Likewise, our City faces a second challenge: financing long-term expenses such as major reconstruction of our streets. Currently, we are rebuilding Hillcrest Drive from Fredericksburg Road to Babcock Road. This project is estimated to exceed \$9 million. Fortunately, we have received substantial support from the Metropolitan Planning Organization (MPO) of about \$5 million. However, depending on others to take care of our needs is not a healthy or sustainable financial strategy.

The two major revenue generators for our city are sales tax and property tax. Sales tax in the 1960s to the early 1980s not only allowed the City to meet its recurring operating expenses but also to build the infrastructure that we citizens enjoyed over the years. When Wonderland Mall opened in 1961, it immediately began generating large amounts of revenue. With that influx of cash, the city was transformed! The property that had once been such a great revenue source began to lose its luster in the mid-eighties. Even with a major renovation effort, it continued to lose major retailers that were the original anchor stores. The once prominent sales tax machine never returned to its days of glory.

Will sales tax return to what it once was? I believe it can, but we must also pursue a strategic plan that would increase the property tax base. This requires economic development that seeks to expand the commercial and multi-family housing with new construction. We have seen strides in that area in recent years with the launch of Target, Methodist Hospital Texasan, Wells Fargo Bank, Office Depot, Peter Piper Pizza, and most recently Chick-Fil-A. The need to continue in this direction is essential in moving our city forward.

Last year Balcones Heights purchased a 45.7 percent ownership interest in Wonderland of the Americas to gain a seat at the table deciding the future of property. We see great potential in redeveloping this prime real estate parcel into a place where people will want to live, work, and play. You may have noticed a difference in recent years as much retail space has been replaced by medical and dental offices. This is known as repurposing and must be done to make the best use of this prime real estate and provide the future resources for our City not only to survive but to thrive. **We must develop or we will most certainly decline.** I choose to develop and hope you do also.

Respectfully,

*Lamar Gillian*
